

S-OIL GREASE SUPER EP 2

Description

S-OIL GREASE SUPER EP 2 grease is based on highly refined mineral oil and contains various additives for working effective under extra extreme pressure and multi-purpose.

It provides a better EP, oxidation stability and wear resistant properties than general lubricant based on petroleum, so it is available in various parts for lubrication.

Advantages

- Excellent resistance for extreme pressure
- Good oxidation stability
- Anti-wear property
- Service temperature: -30°C ~ +150°C

Main Components

- Lithium soap thickener
- Refined mineral oil
- EP additives

Applications

- All sorts of bearing
- Joint and spline shaft
- Any parts for EP and anti-wear property

Typical Properties

Test Items	Method	Unit	Properties
Appearance	-	-	Yellow
Worked Penetration	ASTM D 217	0.1mm	275
Dropping Point	ASTM D 566	°C	220
Copper strip corrosion	ASTM D 4048	-	1a
